(54) Title: POST SYSTEM FOR A RAILING

(57) Abstract: A post system for a railing, the post system including a railing post, an insert and a post base. The railing post includes an elongated tubular body with first and second ends. The insert may snugly be insertable within the first end of the railing post. The post base may be connectable to the first end of the railing post and may have an inner member and an outer member substantially encasing the inner member. The inner member may be constructed from a first material, while the outer member may be constructed of a second material. The post base may include a base member and a housing member connected to and extending from the base member. The housing member may be adapted to engage the railing post.

- *as to applicant's entitlement to apply for and be granted a patent (Rule 4.17(ii)) for all designations*
- *as to the applicant's entitlement to claim the priority of the earlier application (Rule 4.17(iii)) for all designations*
- *of inventorship (Rule 4.17(iv)) for US only*

— *with amended claims*

For two-letter codes and other abbreviations, refer to the "Guidance Notes on Codes and Abbreviations" appearing at the beginning of each regular issue of the PCT Gazette.
